

Education

The GBF Laboratory coordinate two masters and one specialisation and hosts students for an internship period from January to June:

- [Master ADAM \(M. Bouzayen\)](#)
- [Master Bing \(B. Van-Der-Rest\)](#)
- [Spécialisation BioComp \(M. Zouine\)](#)

The GBF laboratory is involved in the doctoral school [SEVAB](#) for the preparation of the PhD and hosts many PhD students in the Laboratory for the preparation of a thesis during a three years period.

At the international level, The GBF Lab (by M. Zouine) is coordinating an ERASMUS+ Capacity Building in the field of Higher Education” project (ref 561964-EPP-1-2015-1-FR-EPPKA2-CBHE-JP) including four countries and ten university/institution partners:
